<i>Percent Given Probation</i>			0%
<i>Percent Adjusted</i>			100%
<i>Median Length of Confinement</i>			20 yrs
<i>Inter-Quartile Range of Confinement</i>			20 – 20 yrs

* Cells shaded in green indicate less than 10 cases.

Recommended Sentence Range: The recommended sentence range of confinement as provided on the guidelines worksheet for 1st Degree Sexual Assault.

Percent of Cases: The percent of cases in the cell for all 1st Degree Sexual Assault worksheets.

Percent Given Probation: The percent of cases in the cell sentenced to probation.

Percent Adjusted: The percent of cases in the cell adjusted due to other case factors and sentenced outside of the worksheet's recommended range.

Median Length of Confinement: The median sentence length—half above, half below—of confinement to prison for cases in the cell.

Inter-Quartile Range of Confinement: The inter-quartile range—middle 50%—for sentence lengths of confinement to prison.

¹ Data are based on sentencing guidelines worksheets received by the Commission, and include only those records with matching case information in CCAP between February 2003 and December 2004. As a practice, the Commission does not report raw numbers due to the dynamic nature between case processing, worksheet submission, and data entry. This helps to prevent the use of out-of-date numbers in sentencing deliberations.
